accompanied by a cover letter addressed to the Editor, indicating that the manuscript is original and not under consideration by any other journal or book. An acknowledgment of receipt will be e-mailed to the author within two days and the manuscript will be sent for external review by three independent reviewers. Once a manuscript is received at NJSS, the editor reads the manuscript for appropriateness for NJSS. Manuscripts prepared in a way that could compromise blind review also may be returned to the author for revision. The American Psychological Association's Publication Manual (7th edition) should be followed when preparing manuscripts. Manuscripts are reviewed by the Editorial Board. NJSS allow up to ten days for commencement of external review, 3 months for a publication decision and up to 1 year for publication.

Authors should supply a cover page with the names and complete contact information for the primary author and any co-authors. Their names should not appear elsewhere in the manuscript. Specifically, the cover page has the title of the paper, the names of all the authors and their affiliation; along with the detailed address of the corresponding author, including postal address, email address, phone number, and fax number. Acknowledgments should be the first entry in the Notes section, which immediately precedes the References. The numbered notes should begin after the acknowledgements. The second page of the paper should have the title of the paper and an informative abstract of no more than 250 words, double-spaced. Provide up to five key words or phrases to help in identifying appropriate reviewers. The body of the paper begins on page 3. It is not necessary to include the title on this page. Primary headings should be capitalized and bold. Secondary headings should be in upper and word capitalized. Third level headings should be italicized with the first word capitalized. All headings should be left justified.

Authors are to organize the manuscript into five main sections: Introduction, Theoretical Background and Literature Reviews (if hypotheses are used, include them in this section), Methods, Result, Discussion and Conclusion. Use secondary headings within each main section to clearly organize the presentation. Put sentences in the active voice (e.g. 'I did it, they did it) instead of the passive voice ('it was done') to make it easy for readers to see who did what. Use the first person ("I" or "We") to describe what you did yourself. Number all the pages, from the cover page to the end of the entire manuscript. Kindly, prepare the entire manuscript (including tables and figures) in Microsoft Word using Times New Roman font, use 12 point size for the body of the paper. NJSS is published twice a year; contributors should e-mail their manuscripts to the Editor at [editor.njss@journals.unizik.edu.ng](mailto:editor.njss@journals.unizik.edu.ng).
